

Program for the Session on DDP between NTU and UT at Tsukuba Global Science Week 2020
Session: Deeping Researches on Agro-biological Resources with Double Degree Program between National Taiwan University (NTU) and University of Tsukuba (UT)

Date: Monday, September 28th, 2020

Time: 10:00-12:00 Japan Time (9:00-11:00 Taiwan Time) (preparation starts at 9:30, online enter at 9:45)

Abstract: For the past five years, our Department of Bioresource Sciences (Master's Program) has been promoting international education and research collaboration with the National Taiwan University (NTU) through the Master's Program Double Degree Program (DDP). In the future, in order to further develop and evolve research, we will invite relevant faculty from NTU and hold short seminars for college students. A ceremony for signing an agreement to extend the DDP over the next five years will also be implemented to further strengthen the relationship with the NTU.
