

A webinar in Tsukuba Global Science Week (TGSW)

Global Development of Higher Education

- A Perspective Toward Trans-border Education -

19th Oct, 2021

17:00-19:30 (MST) / 18:00-20:30 (JST)

In order to realize an ideal higher education feature, we need to perform the education starting from the issues based on the social demand and the student's view points, and we have to be across the multiple borders such as walls of the academic fields, national borders to achieve a frontier of education system and contents. The tasks and the perspectives are discussed to perform a trans-border education with the universities in south-east Asian region. Also, a frontier of the education contents, "Problem Based Learning (PBL)" will be focused on as a center of the higher education to face with the global issues to be solved.

Keynote Lecture

"Vision and mission of higher education towards achieving SDGs: A Comparative Perspective"

17:00-17:40(MYT) / 18:00-18:40(JST)

Prof. Zaini Ujang PhD, PE, FICWEM

Secretary General, Ministry of Environment and Water, Malaysia/Former Vice-Chancellor/President Universiti Teknologi Malaysia(UTM)

Invited Presentations

"A frontier of higher education in engineering at MJIIT-UTM"

17:40-18:10(MYT) / 18:40-19:10(JST)

Prof. Ts. Dr. Ali Selamat

Dean of Malaysia-Japan International Institute of Technology, Universiti Teknologi Malaysia (UTM)

Invited Presentations

"Problem-Solving and Social Impact: Review University Scholarship"

18:10-18:40(MYT) / 19:10-19:40(JST)

Prof. Dr. Edmund Terence Gomez

Former Dean of Faculty of Economics & Administration, Universiti Malaya

Session Organizer

"A possibility of Problem Based Learning to educate the human resources to solve the global issues (tentative) "

18:40-19:00(MYT) / 19:40-20:00(JST)

Prof. Maki Tsujimura

University of Tsukuba

Panel Discussion

"A new direction of higher education to foster the human resources with a transdisciplinary capacity"

19:00-19:30(MYT) / 20:00-20:30(JST)
