

Tsukuba Global Science Week 2022 Session No. 5-6

# A New Approach to Physical Education and Sports Education in the New Normal Era

online session

Physical education and sports education are on the verge of crisis all over the world due to the restriction of various activities in the COVID-19 disaster. The purpose of this session is to share the actual situation of physical education and sports education in countries around the world during the COVID-19 disaster and to explore new approaches for the new normal era. Representatives from partner universities will introduce the actual situation in their respective countries, share how they are trying to overcome the crisis, and explore new proposals by sharing their efforts for physical education and sports education using online. Faculty members and students from each university will be invited to participate and exchange their opinions.
